Education

Rutgers University — New Brunswick, NJ
M.S. in Mathematics, GPA 4.0 — *Expected May 2027*
- Relevant coursework: *Graph Theory* (A), *Algorithmic Trading and Portfolio Management* (IP) *Financial Statistics and Risk Management* (IP), *Experimental Mathematics* (A)

Rutgers University — New Brunswick, NJ
*B.A. in Mathematics, GPA 3.96 — **Summa Cum Laude*** — *May 2023*
- Relevant coursework: *Introduction to Stochastic Processes* (A), *Mathematical Theory of Statistics* (A) *Mathematical Theory of Probability* (A), *Linear Optimization* (A)

University of Maryland — College Park, MD
B.S. in Economics | Minor in Statistics — *May 2022*
- Relevant coursework: *Econometrics* (A+), *Advanced Topics in Econometrics* (A) *Game Theory* (A), *Mathematical Methods for Physics* (A–)

Projects

austindecicco.com *code, papers, data, and coursework* — Personal Website

LiquidityPred: Price-Impact Prediction *with Alex Goferman* — Fall 2026 – In Progress
- Predicts the size of a mid-cap stock's next 30-minute move given a simulated large buy or sell, from ten years of intraday data; random forest, XGBoost, and neural networks are compared to an NNLS benchmark in a dashboard.

FX Portfolio Simulator *with Neel Barve* — Fall 2026 – In Progress
- Currency strategies tuned in-sample and tested out-of-sample feed an efficient-frontier optimizer in an interactive app.

Vanguard ETF Pairs-Trading Research Pipeline *built on Mhamed Bettaieb's pairs-trading code* — Fall 2026
- Screens 116 Vanguard ETFs for cointegrated pairs and backtests a long-only z-score rotation under three exit rules.

Personal Finance Dashboard — Summer 2026
- Tracks balances, investments, debts, and net worth over time, with automated asset pricing and custom alerts.

Robinson–Schensted Statistics of Permutations and SYT *with Jike Liu* — Spring 2026
- Paper, Maple code, and data for Experimental Mathematics (Prof. Zeilberger); two integer sequences not in the OEIS.

Experience

Generalist — Self-Directed
U.S. Equity Markets; Residential Property — *May 2023 – Present*
- Invest in special situations and thematic equities, with the largest gains from a post-restructuring position in American Coastal Insurance (ACIC, formerly UIHC) and from AI and semiconductor stocks in the 2023–2024 rally.
- Direct the renovation of a residential property: manage contractors, capital improvements, and project accounting.

Cryptocurrency Arbitrage — Self-Directed
Ethereum and VeChain DeFi Ecosystems — *2020 – 2022*
- Manually executed hundreds of cross-DEX arbitrage trades on Ethereum (Uniswap) and VeChain (Vexchange, Beterswap, and others) during the 2020–2022 DeFi cycle; entry threshold scaled with capital and gas to clear fixed and proportional fees plus a buffer for expected spread decay over the ∼5-minute manual execution window.

Skills

Programming Experience: Python, Maple, Java, SAS, Stata, MATLAB, LaTeX, HTML, CSS.

Quantitative: Stochastic processes, mathematical statistics, time-series and panel-data econometrics, regression and hypothesis testing, combinatorics, Monte Carlo and bootstrap methods.

Markets: 10+ years personal trading (equities, options, crypto); fundamental and special-situations equity analysis.

Service & Outreach

Volunteer Firefighter — Flemington, NJ
Flemington Fire Department — *May 2024 – Present*

Executive, College Park Student Investment Group — College Park, MD
University of Maryland — *2020 – 2021*
- Prepared market commentary, organized and led group meetings on current conditions, and educated peers.
